

# Prevent-Teach-Reinforce P-T-R

## The School-based Model of Individualized Social Emotional Behavioral Supports

Prevent-Teach-Reinforce P-T-R is a standardized, data-driven, manual-guided process designed for school-based teams who are working on developing and implementing social emotional behavioral support plans for students with persistent and challenging behaviors. The P-T-R process relies heavily on Function-based Assessments (FBA) and behavior support plans by combining the principles and procedures of applied behavior analysis and Positive Behavioral Interventions and Supports (PBIS). Active coaching support ensures adherence and fidelity of the plan.

*Recommended for MTSS/Advanced Tiers Social Emotional Behavioral specialists interested in P-T-R capacity building at a systems level.*
