

# High School Positive Behavioral Interventions & Supports Community of Practice 2016-17

# HSCoP #4 April 26, 2017 Purposeful Problem Solving Teams

#### **AGENDA**

- ∆ Webinar with Jessica Swain-Bradway (Midwest PBIS)
  Data for Decision Making in High Schools An Overview
- Δ Processing Activity: Precision Statements & Goals
- △ **Webinar with Jessica Swain-Bradway (Midwest PBIS)**Linking Data, Precision Statements and Solutions in High Schools
- $\Delta$  Processing Activity: Solution Plans

www.pbiscaltac.org

Facilitated by: Cristy Clouse cristy@pbiscaltac.org

### Rolling Outcomes:

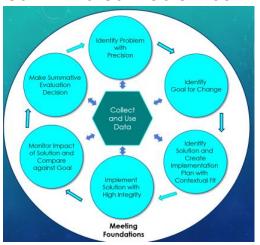

Given today's agenda...

- 1 I would like more clarification about......
- 2 Something new I hope to learn.......
- 3 I would like to have a deeper understanding about..........
- 4 I would like to feel ......
- 5 I want to experience......
- 6 I am hoping to leave today with......

#### Today's essential question:

What are the considerations for developing purposeful problem solving teams in high school?

#### Team Initiated Problem Solving Model

Team-Initiated Problem Solving (TIPS) is a problem-solving framework used during meetings (e.g., PBIS, RTI, MTSS) focused on data-based decision making to improve student outcomes. TIPS is applicable to varied data sources (e.g., office discipline referrals, grades, tardies), content areas (e.g., attendance, behavior, coursework) and levels of application (e.g., school, district, state).

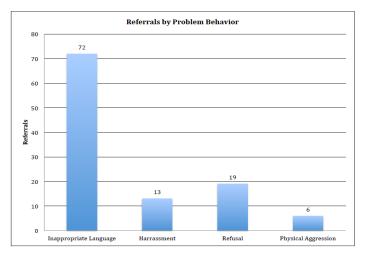

TIPS is a framework that addresses problem solving barriers by guiding teams through a data-based decision making process that leads to desired outcomes. The focus of TIPS includes meeting foundations guided by structured Meeting Minutes and a six-step generic problem solving model that provides structure to any type of meeting.

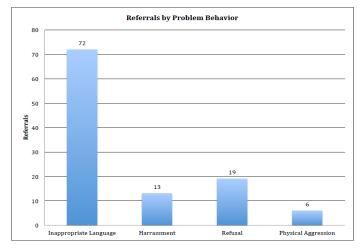

Horner, R. H., Newton, J. S., Todd, A. W., Algozzine, B., Algozzine, K., Cusumano, D. L., & Preston, A. I. (2015).

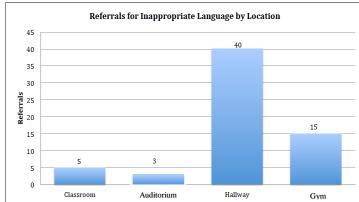

#### Step 1: Identify the Problem with Precision

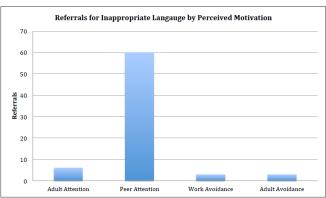

What problem behaviors are most common? Where are problem behaviors most likely? When are problem behaviors most likely? Who is engaged in problem behavior? Why are problem behaviors sustaining?

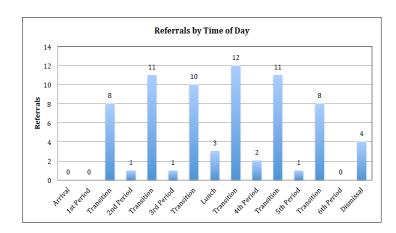

| What to Do   | Questions to Ask  |
|--|---|
| Step 1: Identify Problem with Precision                                      | What is the problem? Who? What? Where? When? Why?   |
| Step 2:<br>Identify Goal for Change  | How do we want the problem to change? What evidence do we need to show that we have achieved our goal?  |
| Step 3: Identify Solution and Create Implementation Plan with Contextual Fit | How are we going to solve the problem? How are we going to bring about desired change? Is solution appropriate for problem? Is solution likely to produce desired change? |
| Step 4: Implement Solution with High Integrity                               | How will we know solution was implemented with fidelity? Did we implement solution with fidelity?   |
| Step 5:  Monitor Impact of Solution and  Compare Against Goal                | Are we solving the problem? Is desired goal being achieved?   |
| Step 6:<br>Make Summative Evaluation Decision                                | Has the problem been solved? Has desired goal been achieved? What should we do next?  |

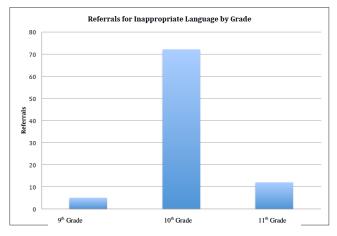

|                      | Weekly Homework Assignments (Completion and Accuracy) |  |  |                                   |                                   |                                    |                                   |                                   |                                    |  |   |

#### Step 2: Identify Goal for Change

How do we want the problem to change? What evidence do we need to show that we have achieved our goal?

#### **SMART Goals**

Specific
Measurable
Achievable
Relevant
Timely

**Building Goals:** 

| Problem                         | Level                           | Goal                             |
|---------------------------------|---------------------------------|----------------------------------|
| Many students are leaving       | 22 ODRs per month from the      | Less than 5 ODRs per month       |
| garbage in the cafeteria        | cafeteria                       | from the cafeteria.              |
| resulting in conflict and ODRs. | Heidi (campus supervisor) rates | Heidi rates cafeteria as greater |
| The behavior is maintained      | cafeteria as "1" (low) on a 1-5 | than 4 for cleanliness two weeks |
| because students are rushing to | scale of cleanliness.           | in a row.                        |
| get to the common area for      |                                 |                                  |
| social time.                    |                                 |                                  |

| Date of Initial Meeting:                          |                            |                            | Date(s) of Review Meetings            | 8                     |   |   |  |  |  |
|---|----------------------------|----------------------------|---------------------------------------|-----------------------|---|---|--|--|--|

## Step 3: Identify Solution and Create Implementation Plan with Contextual Fit

How are we going to solve the problem? How are we going to bring about desired change? Is solution appropriate for problem? Is solution likely to produce desired change?

#### **SOLUTION PLAN**

#### **Precision Statement (Hypothesis):**

#### Goal:

| PREVENT What can we do to prevent the problem?  |  |
|---|--|
| TEACH What can we do to teach to solve the problem?                                       |  |
| REINFORCE What can we do acknowledge appropriate behavior?                                |  |
| EXTINGUISH What can we do to prevent the problem behavior from working or being rewarded? |  |
| CORRECT What will we do to provide corrective feedback?                                   |  |

1. Was today's meeting a good use of our time?

2. In general, did we do a good job of <u>tracking</u> whether we're completing the tasks we agreed on at previous meetings?
3. In general, have we done a good job of actually <u>completing</u> the tasks we agreed on at previous meetings?
4. In general, are the completed tasks having the <u>desired effects</u> on student behavior?
