1.9 Feedback and Acknowledgement:

A formal system (i.e., written set of procedures for specific behavior feedback that is [a] linked to school-wide expectations and [b] used across settings and within classrooms) is in place and used by at least 90% of a sample of staff and received by at least 50% of a sample of students.

- Δ Are students and staff interviewed at least once per year to see if they are receiving and distributing acknowledgements?
- Δ Are those acknowledgements linked to school-wide expectations?
- Δ Are they distributed across school settings?
- Δ Do at least 80% of students interviewed report receiving them?

Students will sustain positive behavior only if there are regular strategies for continuous re-teaching and rewarding appropriate behavior. Formal systems are easier for teachers/staff to implement.
